

Annalise-AI UK Ltd

is committed to achieving net zero emissions by 2045 when we plan to have reduced our emissions by 90%.

Baseline Emissions Footprint vs Current Emissions Footprint

Baseline emissions are a record of the greenhouse gasses that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Emission Scope	Baseline Emissions, 2023 (kg CO2e)	Current Emissions, 2023 (kg CO2e)
Scope 1	0	0
<i>Sites **</i>	0	0
<i>Company Cars</i>	0	0
<i>Delivery Vehicles</i>	0	0
Scope 2	0	0
<i>Sites **</i>	0	0
Scope 3	33,513	33,513
<i>Sites **</i>	0	0
<i>Home Working</i>	3,229	3,229
<i>Company Cars</i>	0	0
<i>Employee Owned Vehicles</i>	1,037*	1,037*
<i>Employee Commuting</i>	0	0
<i>Public Transport & Hire Cars</i>	1,640	1,640
<i>Air Travel</i>	25,916*	25,916*
<i>Hotels</i>	1,691	1,691
<i>Freighting Goods</i>	0	0
<i>Waste Disposal</i>	0	0
Total	33,513	33,513

** Generated from renewable sources

* includes WTT

The Scope 3 emissions include as a minimum:

- Upstream transportation and distribution
- Waste generated in operations
- Business Travel
- Employee Commuting
- Downstream transportation and distribution

(any omissions or further information is documented in the Additional Details About our Emissions and Targets box below)

Carbon Reduction: Projected vs Actual

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets. We project that carbon emissions will decrease over the next years to 3,351 by 2045 this is a reduction of 90%

Additional Details About our Emissions and Targets

Year	Comments
2023	Annalise.ai UK Ltd's commitment to reducing carbon emissions aligns with the NHS's decarbonisation goals, even as a primarily software-centric provider. As a remote-first company we leverage advanced technology to facilitate communication and collaboration, diminishing the need for commuting and thereby cutting transportation emissions significantly. We actively encourage the use of public transport by all our employees. As our UK based team increases in number, we are committed to ensuring each new employee is aware of our commitment to carbon reduction across all areas of our company. We have focused on UK emissions only in this Carbon Reduction Plan. Scope 1 and Scope 2: We have a home-based UK workforce so do not have an office building nor any employee commuting, we do not have company cars, we are a software company so we do not use delivery vehicles nor do we freight any goods, we do not dispose of any waste. As a result, we do not have Scope 1 or 2 emissions. Scope 3: We do not import, distribute or dispose of goods to/in the UK as our software business is web based.

Carbon Reduction Projects

The following environmental management measures and projects are currently in progress or have been completed since the 2023 baseline.

Actions In Progress

Carbon Reduction Education Plan

Target Completion Date: 31/12/2024

Objective

To ensure all employees are aware of the impact of their travel choices and its impact on the Company's Carbon Reduction Plan.

Target

To ensure this becomes part of the People & Culture Team onboarding process so that all new employees are aware of our commitment to Net Zero.

Action, Improvement or Control

Action: Carbon Reduction Education Plan to be created.

Increase efficiency of product development to minimise embedded carbon

Target Completion Date: 31/12/2028

Objective

Ensure our product development utilises cloud compute providers that are committed to Net Zero emissions and/or are moving toward renewable energy use for their cloud infrastructure.

Target

To encourage our supply chain to adhere to eco-friendly practices by preferring vendors with proven commitments to sustainability.

Action, Improvement or Control

Action: Monitor carbon output statistics.

Roll out procurement policy for IT assets

Target Completion Date: 31/12/2024

Objective

To define our vendor standards for IT assets procurement with a focus on vendors with Net Zero targets by 2030.

Target

To finalise and rollout IT assets procurement policy in 2024.

Action, Improvement or Control

Action: Define vendor standards for IT assets.

More UK recruitment to reduce impact of international business travel

Target Completion Date: 31/12/2026

Objective

To increase the number of UK and regional employees to ensure interaction with clients keeps international travel to a minimum.

Target

To reduce international travel by ensuring only key personnel travel abroad, and only when deemed essential.

Action, Improvement or Control

Action: Ensure employees are hired regionally to reduce the amount of international travel that is required.

Renewable Energy - data servers

Target Completion Date: 31/12/2025

Objective

To create partnerships with green energy providers to ensure that the data centres hosting our services run on renewable energy.

Target

To gather data relevant to this action and to monitor it to ensure the correct choices are made when subcontracting.

Action, Improvement or Control

Action: Team leader to gather information from any companies we subcontract to and monitor their commitment to renewable energy sources and carbon reduction.

Completed Actions

Declaration and Sign Off

This carbon reduction plan has been completed in accordance with PPN 06/21 and the associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHC Reporting Protocol corporate standard ¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting ².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
